Pottery Around the World : *Where Art History meets pottery*
Spring session 2019

In this clay and mixed media art class for elementary students focuses on hand building and sculpture and imaginative play. Our pottery class is a combination of Art History meets pottery. Children will learn about different countries and create that country's famous ceramic art. The projects are cultural, creative and fun!

In this Spring season, students will learn about Japanese monkeys in hot springs, Russian nesting dolls, Chinese dragons, Winter Forest tape art and Rock art on canvas.

No prior ceramics or clay experience is required. More challenging work will be assigned to students with previous experience.
